Alireza Doostdar in his very imaginative and equally well articulated book "The Iranian Metaphysicals: Explorations in Science, Islam, and the Uncanny" sets himself the task of engaging with the ways and conditions in which such
repressed primitive beliefs and the uncanny unheimlich experiences they generate might serve as possible gateways for entering into other forms of rationality by doing so doostdar points to the power of the uncanny to challenge our modern'

Explorations In Science Islam

May 25th, 2020 - The Iranian Metaphysicals Examines These Experiments And Their Transformations Over The Past Century Drawing On Years Of Ethnographic And Archival Research Alireza Doostdar Shows That Metaphysical Experimentation Lies At The Center Of Some Of The Most Influential Intellectual And Religious Movements In Modern Iran'
on secularization and the coronavirus in Iran eutopia

May 28th, 2020 - the anthropologist Alireza Doostdar offers a framework for thinking through these entanglements in the Iranian metaphysical explorations in science, Islam, and the uncanny.

2018 his ethnographic research on occult beliefs and practices in contemporary urban Iran shows that divides between the secular and spiritual and Islam are not as fixed as they appear.
