Edward S. Curtis left us a valuable legacy with his images of North American Indians. Curtis was an ethnologist, photographer, and author. He was born on February 16, 1868, and died on October 19, 1952, at the age of 84 in the home of his daughter in Whittier, California.

Edward S. Curtis (1868-1952) The North American Indian

Edward S. Curtis' epic project to photograph Native Americans

June 6th, 2020 - At the beginning of the 20th century, Edward S. Curtis worked in the belief that he was in a desperate race against time to document with film, sound and scholarship the North American Indian.

Edward S. Curtis' monumental project the North American Indian resulted in twenty large picture portfolios each with about thirty-nine photogravures intended for framing and twenty accompanying text volumes in a leather-bound edition produced between 1907 and 1930. The North American Indian was available by subscription and was collected mostly by wealthy patrons.

His sacred legacy is a fitting testament to the profound beauty, meaning, and plexity of Indian life, and to Edward S. Curtis, a man whose wisdom, passion, and strength drove him to devote thirty years to capturing the
nobility and pride of the native peoples of north america'
